Certification of Protection of Human Subjects, Institutional Review Board Approval for Research Involving Human Subjects

Safeguarding the rights and welfare of human subjects involved in activities supported by the GAPNA Foundation is the responsibility of the individual who receives the funds awarded. In order to provide for the adequate discharge of this institutional responsibility, no grant for an activity involving human subjects shall be made unless the application for such support has been reviewed and approved by an appropriate facility or organizational committee.

Check one of the following statements as applicable:

This application does not propose any activities that would involve human beings as research subjects.

This is to CERTIFY that this application, which does propose research activities involving human subjects, will be reviewed and approved by the facility/organizational committee in accordance with current DHHS policy. If Institutional Review Board approval has been approved, please submit evidence of the approval. Certification is invalid if review date precedes date award is made by more than 1 year.
